## Polluter pays principle

Changes may still occur before final publication.

## ENVIRONMENTAL LAW IN KENYA

It is also worth noting that the importance of the above mentioned trade-off depends on the abatement technology used by the monopolist. Until recently, most ETS permits were handed free of charge to companies so revenues were very low.

## Polluter pays principle

When someone is driving you nuts, Gray recommends that you turn the emotional tables: imagine what might prompt you to behave like him or her. There are companies incorporated otherwise than under the companies Act. Given the health benefits and the consequent saving to the NHS, public health campaigns to communicate the benefit of low meat diet should be funded at least in the scale of the Change4life campaign cited above.

## Jamaica National Environmental Action Plan 1999

The application of principle requires interpretation of it by the policymakers.

## Countries that recycle the most and what we can learn from them

The results of the KATER karst water research program and KATER II, like maps, data, and studies, are integrated into a geographical information system GIS based decision support system, which helps develop transparent and comprehensible land-use plans. In addition to pricing carbon, the government should eliminate the financial and political support it provides to the fossil fuel industry. To this end adopts the polluter pays principle and the user pays principle to avoid excessive or wasteful use of natural resources.

## **The Precautionary Principle in the Indian Courts**

For example, a few years after embankments were constructed, drainage congestion, drying of water creeks, soil and water salinization, and flash flooding have occurred Choudhury et al. Each nation must establish its own standards 24. Will it negatively affect the agriculture and food industry in the long term? The most important factor to be taken into account is the degree to which science should drive policymaking.

### **Polluter**

For example: The Los Angeles Times exposed how from 1990 ExxonMobil poured millions into a campaign that questioned climate change. With tens of millions of dollars at stake, these settlements are heated, and negotiations can drag on years. A biodiversity database and species management plan will be developed.
