To achieve such goals, no one entity—whether that be the national government, a private sector company, or a multilateral organisation—can do it alone. Progress is constrained by a lack of gender-disaggregated data, even in Italy. Studies show that women-owned businesses that are able to successfully obtain government contracts usually grow, and in return, contribute to increased GDP growth and an improved female labour force participation rate.

Being able to access readily available stocks of legal timber would also enable small contractors to participate in government tenders requiring legal

timber. It is a crucial pillar for governments and affects the livelihoods of citizens in everything from energy efficiency to healthcare. Cameron A, Bansal A, Dua T, Hill SR, Moshe SL, Mantel-Teeuwisse AK, et al.

Promoting Legal Timber Markets: the Role of Public Procurement Policies in the Tropics

If done right, reformed laws would strengthen transparency in the public sector. Public-private partnerships PPPs are defined as a way of contracting for developing and maintaining infrastructure services, using private sector innovation and skills to manage operations that often leverage private finance.
