iNTELWEIGH Walk Over Weigh System

In humans, APs are encoded by a multi-gene family composed of four loci; i.

iNTELWEIGH Walk Over Weigh System

The sequence and complexity of the AP genes from other vertebrates and lower species are now being elucidated. .

Our Platform

The use of phosphate acceptor molecules diethanolamine, tris, 2-amino-2-methyl-1-propanol in the buffered substrate solutions increases the reaction rates and, thus, the sensitivity of assays based on AP determinations. It contains proteins, carbohydrates, fats, vitamins, minerals, and proteins antibodies that fight disease-causing agents such as bacteria and viruses. With more than 18,000 employees, the group generated revenue of more than EUR 4.

Our Platform

The stainless steel load bars have been designed to cater for the harsh working environment. The biological function of AP isozymes is still unknown.
