## Head and Neck Surgery

The valet staff members are located in front of the medical center by the main entrance. Operative Procedures—General Considerations A number of head and neck, otolaryngologic, and oral surgery procedures are high risk owing to exposure of airway and mucosal surfaces and the possibility of generating aerosols.

## Treatment for ear, nose and throat cancers

Reasons for hearing loss can range from physical changes within the ear caused by aging, an injury or infection that damaged part of the ear, exposure to loud noise, an inherited condition, or exposure to toxic medicines. Additionally, a detailed postprocedure care plan should be established to ascertain the protection of other patients and health care workers. Credit: Terese Winslow Cancers of the brain, the eye, the , and the , as well as those of the scalp, skin, muscles, and bones of the head and neck, are not usually classified as head and neck cancers.

## Otolaryngology

Infection with the is a risk factor for nasopharyngeal cancer and cancer of the salivary glands ,. It is important to check with a doctor or dentist about any of these symptoms. He has published over 40 peer-reviewed research articles, reviews, and book chapters.

## Welcome to the UNC Department of Otolaryngology/Head and Neck Surgery (Ear, Nose, and Throat)

Eating may be difficult after treatment for head and neck cancer. Consumption of certain preserved or salted foods during childhood is a risk factor for nasopharyngeal cancer ,.
