Thomas Henry Huxley Early life, Voyage of the Rattlesnake, Later life, Darwin's bulldog, The Free Encyclopedia

Among his writings on , his memoir on the African lungfish, which he named , laid the foundations for the recognition of the by. Darwin's proposed knighthood was vetoed by ecclesiastical advisers, including Wilberforce Perhaps Huxley had commented too often on his dislike of honours, or perhaps his many assaults on the traditional beliefs of organised religion made enemies in the establishment—he had vigorous debates in print with , and , and his relationship with was less than tranquil.

Owen's Ape and Darwin's Bulldog by Christopher E. Cosans

He was awarded the highest honours then open to British men of science. One question that this case study might shed light on is the controversy among philosophers and scientists on how, if at all, science can be distinguished from other intellectual disciplines.
