Hegemony, Ideology, Governmentality: Theorizing State Power after Weber

He argued that society's intellectuals, often viewed as detached observers of social life, are actually embedded in a privileged social class and enjoy great prestige. How is it that we take punctual, individual selves for granted as an irreducible feature of reality and the foundation of politics? ¹ However, whatever its immediate antecedents, there is no question that Gramsci makes a historical and political parallel between the riformathat the philosophy of praxis is to undertake, and the Lutheran and Protestant Reformation of the sixteenth and early seventeenth centuries.
