And if the point is not obvious to readers who are not intimately familiar with the subject matter the way you are, then you are offending readers by insulting their intelligence, and you are demonstrating your own inability to communicate the intuition. In particular, this technical paper provides more detail on electronic formatting and submission of data elements required to be submitted through CAFO annual reports, compliance monitoring activities, and permit applications and Notices of Intent NOI.

Technical paper

Write down everything that you know, in no particular order and with no particular formatting. Time is of the essence! The approach outlined in this paper provides authorized NPDES programs with sufficient time to share facility and permit data with ICIS-NPDES and to conduct outreach, training, and registration for NetDMR and other electronic reporting tools. It considers the benefits of setup reduction, setup reduction methods and techniques, maintaining and improving equipment, equipment effectiveness, preventive maintenance and total productive maintenance TPM.
