Both the service provider and service consumer use these tags. At the left of the figure is a fragment of the WSDL sent to the repository.

Web Services and Service

XML is used to define messages. Show more Web services are leading to the use of more packaged software either as an internal service or an external service available over the Internet. If you use multiple service providers, it is easily possible that you will be using all three Web Services specifications: SOAP, REST, and JSON.

Web Services Explained

As CEO of Arcitura Education Inc.

Web Services and Service

With over 175,000 copies in print world-wide, his eight published books have become international bestsellers and have been formally endorsed by senior members of major IT organizations, such as IBM, Microsoft, Oracle, Intel, Accenture, IEEE, HL7, MITRE, SAP, CISCO, HP, and others. It shows a CustomerInfoRequest that requires the customer's account to object information.
