Education of Tribal Children

Titan supports the education of children in the 8th, 9th and 10th classes as well as a Teacher's Education Programme Diploma in Education conducted by SVYM.

Education of the Tribal children and Multilingual Education in Odisha From Community to Classroom

Cultural materials of the communities were used in the text books and teacher training. The idea of critical pedagogy in order for the self assertion of tribal in the context of present day politics and power relation and the objective of maintaining tribal language and culture in community and school were some of the topics for the teacher training Odisha MLE programme was primarily minority language dominant programme where from Class I to class III about 80- 90 percent mother tongue was used and in Class III and IV a balanced language programme was adopted by using both MT and L2 equally.

Tribal Education

It is true that all the MLE teachers, at present, are from tribal communities.

Tribal Education

Curriculum and instructional materials were prepared by the tribal teachers with the support of MLE experts and community resource support. But the training of teachers, field monitoring and coordination was lacking for which the programme was though implemented it was almost half dead. The assurance to the tribal communities was to safeguard their culture and language was violated through a structured monolingual school system that undermined the diverse language of the children.

Tribal Education

Farmers were surprised that why at all the agriculture scientists stopped practicing them traditional organic farming and introduced pesticides and now they are again propagating to follow organic farming.
