### Advancing the Rigor of DNP Projects for Practice Excellence

In each of the temptations, Christ uses Scripture to overcome Satan successfully. This teaching is extremely important because Christians often approach their religion in terms of what they don't do. ### **Examining the interface between interprofessional practice and education: Lessons learned from Norway for promoting teamwork**

GOAL: The purpose of this study is to understand better the meaning of, need for, and process of integrating learning, faith, and practice in every aspect of Christian education.

### **Ecocritical Theory and Practice**

Many young people are overwhelmed by what they believe to be God's requirements for Christians--the standard seems unattainable. While the conviction that brings this transformation is the work of the Holy Spirit John 16:7-13, the person must be provided with opportunity to demonstrate this transformation in Christian actions. Illustrate how various experiences can be used in different subjects to develop values and attitudes.
