The Balkan crisis of 1875

The most significant provision, in terms of subsequent events, was the one which said that if any of the Triple Alliance powers mobilized, France and Russia would mobilize immediately. Art and literature, as an aesthetic experience, are connected to perceptions and the emotions connected to perceptions are another way to make sense of international politics. The Slavophiles and other conservatives argued that the Western European model of historical evolution was not the only way forward and far from ideal.

Britain and the Balkan Crisis of 1875

Marseilles, France's busiest port, relied heavily on trade with the Ottoman-ruled Eastern Mediterranean. USA claimed the fought in favor of safe democracy. Diplomats saw little need to learn foreign languages except French or even to collect accurate maps.

Great Eastern Crisis

No other Power would concede such a great prize to the Russians. When, in a counter-coup, Prince Alexander I returned to the Bulgarian throne, Russia broke off diplomatic relations with Bulgaria.
