Lighting and the Dramatic Portrait: The Art of Celebrity and Editorial Photography by Michael Grecco

In this scene, the sun was filtering through the trees, and I positioned the light slightly to the side. The light is coming from the same direction as the camera. This book was of particular interest to me since I have the same general lighting equipment that's in most of the setups.

When to Use It Rembrandt lighting is a traditional yet dramatic lighting style. I was in summer camp in upstate New York, a twelve-year-old boy, more or less uninterested in sports, but fascinated by science. To get in touch, you can look him up on.

8 Portrait Lighting Setups Every Photographer Should Know

Using the hair light gives great separation from the background.

Portrait Photography Lighting Basics

Remember, you can add even more drama if you use more than one of the mentioned lighting techniques! Either way, it has a great impact on any image. Mom and Dad wanted me to be a © Paula Lerner Photography doctor or a lawyer, not a photographer.
