6 factors shaping the global economy in 2016

Now, unbundling opportunities are extending deeper into the value chain and enabling greater participation by specialists. And they have an amazing capacity to think they really can change the world. At the turn of the century, the United States is the closest thing the world has to a workable multicultural society.

6 factors shaping the global economy in 2016

This step requires the help of the people to make sure changes are used all the time and implemented even after the objective has been achieved. The transportation and logistics sector will have to be transformed into an automated GPS-guided driverless network running on smart roads and rail systems. Cloudera has a digital transformation challenge in evolving its Enterprise Data Platform into a next-generation Insight and Machine Learning Platform.

Labor 2030: The Collision of Demographics, Automation and Inequality

One factor to bear in mind is that voters often seems to favour the status quo when uncertainty is high.

Labor 2030: The Collision of Demographics, Automation and Inequality

There are plenty of hot startups with a new technology that can accelerate the transition to a circular economy. The economic costs of these negative externalities is difficult to quantify, but thought to be in the region of USD 192 billion.

Nonfiction Book Review: THE DEATH OF E AND THE BIRTH OF THE REAL NEW ECONOMY: Business Models,

Technologies and Strategies for the 21st Century by Peter Fingar, Author, Ronald Aronica, Joint Author . Meghan

One: the year of political populism? Rather than hanging on to a job for life, the goal today is to be employable: to develop the skills, experience and expertise necessary to move on or up, regardless of your employer. Fossil fuels will continue to be a primary source of power into the middle of the 21st century—but they will be clean fossil fuels.
