State of Historic Places

In a study of 411 consecutive pregnancies in women ages 12-18 years, information was collected from mothers on social status, education, income, and relationship with father of infant. The increased availability of contraception and abortion made shotgun weddings a thing of the past. In nearly every year since the mid-1960s, the percentage of births that were out-of-wedlock increased steadily.

Cubberley Historical Curriculum Records Collection

Teenagers of black and other minority races have a rate of death from ectopic pregnancy almost six times higher than that for white women of the same age group.

Immunization Laws and Regulations

If not resolved by marriage, unmarried women who gave birth typically gave up their babies for adoption.

What Can Be Done to Reduce Teen Pregnancy and Out

In future generations, other institutions of stature would sprout and become significant museums in their own right. Thus, an independent assessment of risk is critical.

How Welfare Undermines Marriage and What to Do About It

Encyclopedia of Cleveland History 2020-10-05.

State of Historic Places

Heightened Awareness of Problems with Unethical Research In 1966 Dr. He thus rebutted power-elite theorists such as and Floyd Hunter, who had described the United States as a country ruled by a small group of interconnected individuals occupying key positions of power.

Immunization Laws and Regulations

While physical risks are minimal in social and behavioral science research, risks associated with participation in social and behavioral science research are often more elusive and less predictable.
