H36 Canine and feline behavioral therapy.

## **Bibliography**

Simplified curve and surface interrogation via mathematical packages and graphics libraries and hardware.

### **Optical inspection and testing : proceedings of a conference held 17**

We could widen viewing zone by controlling paraxial radius of curvature of spherical mirror, the distance between lenses and so on. A first step with a small number of measurements to estimate the number of points needed, and a second step for the final reconstruction. Abstracts of the Annual Research Symposium, Faculty of Engineering, University of Ruhuna, Galle.

### **Optical inspection and testing : proceedings of a conference held 17**

This capability is based on image depth control that can be used for compensation of perspective distortion, caused by the optical magnification. Methods of disease prevention, identification, housing and exercise are discussed. Applied animal behaviour science v.
