### Nondiscrimination Statement

Resources in multiple languages from the Best Start Resource Centre Alcohol and Pregnancy Be Safe: Have an Alcohol-free Pregnancy - Handouts Best Start Resource Centre with the support of the LCBO, 2012 The handouts provide information and tips for expectant parents about alcohol use in pregnancy.

### Multicultural Health

Therefore, we chose to present only 1995 BMI data from South Korean adults and included comparable obesity data from other Asian countries to compare the prevalences of obesity.

### Best Start

The prevalences in South Korea were even lower than earlier prevalences in countries in which the national income remains lower than that of South Korea. Information from Asian countries such as Japan, China, and Thailand and from South Africa and the Caribbean shows an accelerated change in the structure of diet after these countries attained dietary sufficiency at the national level , , . See Methodology for more information on the indicators.

### nutrition transition in South Korea

Committee for Refugees and Immigrants Culturally appropriate material for consumers and health care-related professionals, in 19 languages.

### Nondiscrimination Statement

KNHANES provides statistics for health-related policies in Korea, which also serve as the research infrastructure for studies on risk factors and diseases by supporting over 500 publications. The assessment of fat and fatty acid consumption among young children may be helpful in efforts to improve their health status through the development and implementation of national nutrition policies and programs. South Korea also has a relatively low prevalence of obesity compared with other Asian countries with similar or much lower incomes.
