Ein Theolog über die Christlich

Socialised forms of control are not an end in themselves, but only the means for realising this right of control over the means of production for the workers - a means of eliminating the separation of labour from the product of labour, a means of enabling the abolition of wage labour to be accomplished. Some Comparative Evaluations Thus the production factors are seen to be fully accurate with the exception of possible false estimations in the early period of communism. The outcome of the process is very clear.

Libertärer Sozialismus: Der Libertarianismus geht davon aus, dass die grundlegende Natur der Menschen rational, autonom und selbstbestimmend ist.

The workers councils as organisational foundation of communist production

He states, 'This means nothing other than that our generation has had placed before it the problem of transforming, with the help of the State, with the help of consciously applied methods of social regulation, the present-day economy organised and led by the capitalists into an economy administered through the democratic state.
