Of these, two have lifted all restrictions, while the remaining 113 continue to have

certain restrictive measures in place. In fact, according to new global research from Deloitte LLP, budgeting takes eight weeks or more in 80% of organizations.

## Factoring Risks into Financial Forecasts and Planning

World Bank forecasts are frequently updated based on new information and changing global circumstances. Requirements and actions for city leaders With the fabric of cities having unraveled so decidedly during the crisis, and unlikely to resume its former shape, leaders now have a compelling reason and unique opportunity to transform the urban environment into something more sustainable, more resilient, and more equal. ## Global Economic Prospects 2018: Middle East & North Africa

In addition to the usual overview of current and emerging economic trends, the 1994 Survey focuses on the issue of unemployment, which has become one of the major economic and social challenges faced primarily by developed market economies but also by countries on a global level. For many of the rising cities, long-term investments in governance and economics have begun to pay off. If this growth rate continues, there will be 53 million Tanzanians in 2018 and 100 million in 2042.

## What's driving Africa's growth

The region is also still mainly dependant on foreign technologies and skilled manpower. And without more MSMEs—the engines of job creation and economic growth worldwide—moving to scale, it is plausible that the SDGs will become harder and harder to achieve. With resources and

budgets under duress, city leaders will have to look for wherever they can.
