human behavior has been a subject of discussion since Herodotus's time. Noncompliance with the law and the use of colonial courts were also venues for resistance. Volcanic activity might be another explanation: volcanic eruptions send particulate matter and SO<sub>2</sub> into the atmosphere, enhancing the aerosol load.

**Evidence for the Postconquest Demographic Collapse of the Americas in Historical CO<sub>2</sub> Levels in: Earth Interactions Volume 10 Issue 11 (2006)**

HAHR's comprehensive book review section provides commentary -- ranging from brief notices to review essays -- on every facet of scholarship on Latin American history and culture.

This relationship between a historic event and the climate suggests that human behavior had a significant effect on climate centuries before the known consequences of industrialization on weather patterns. Political Police Dossier on the Latin American Revolutionary.
