The Support Worker will feedback
regularly to the Physiotherapist on the
progress of the therapy plan.

Paediatric physiotherapy

How can we help you? Strengthening
exercises involve working specific muscles
against an opposing force. Paediatric
Physiotherapists promote the health and

The course may also be suitable for experienced support workers and other AHP's who work within paediatrics. Later, independent mobility may be aided in a number of ways. Because of the complex needs of the child and the family, the physiotherapist may work with many other disciplines including medical, nursing, social work, educational and care staff, psychological and psychiatric teams as well as speech and.
