A biography of Ibn ‘Abd al

Dr Shaji Abraham is a Specialist Neurologist with vast amount of expertise garnered during his training as well as his long tenure working in a tertiary medical college in India. Thus, the first two entries are on biographical dictionaries, in the thirties range we find a certain cluster of post-canonical ḥadīth works arba‘īnāt and thalathīnāt, and in the forties range there is a large cluster on Prophetic medicine. He has had extensive training in Laparoscopic Surgery and in surgical oncology and he has used these skills to perform more than 7000 surgeries in Badr Al Samaa Group of Hospitals and Medical Centres.

Badr Al Samaa

To his credit, he has set up a modern neurosurgery department for the MOH, Oman and was the head till 2015.

Min ahādīth al

He has attended several National and International conferences and made original paper presentations of repute. He is an expert in the field of regional anaesthesia and difficult airways management.

Badr Al Samaa

Did he access the books and booklets in the Zāhiriyya Library or did he copy his information from earlier biographical dictionaries or a little bit of both? It also differs from the most renowned Ottoman and Mamluk dictionaries in that it employs a very wide temporal framework. Or is it rather Kamāl al-Dīn al-Ghazzī during whose lifetime the Ibn ‘Abd al-Hādī corpus would still be mostly intact in the ‘Umariyya? She provides care to women of child bearing age and provides family planning advice. Dr Vivek Kamath Hosdurg is a specialist anaesthesiologist with 22 years of experience in the field of anaesthesia.
