Indian Navy's 2nd edition of coastal defence exercise 'Sea Vigil

Inventory A list of biological assets associated with a containment zone identifying pathogens, toxins, and other infectious material in storage both inside and outside of the containment zone. In containment zones where non-indigenous animal pathogens are handled, submitting changes to program intent or to SOPs that may impact biocontainment or biosafety to the CFIA prior to implementation allows the CFIA to confirm the changes are acceptable and that containment will be maintained.

Criminal Procedure in Canada, 2nd Edition

Terrestrial animal pathogens cause disease in terrestrial animals, including avian and amphibian animals, but exclude pathogens of aquatic animals and invertebrates. Each of these entries is exceptionally reliable, the result of thorough research into the language and Oxford's unparalleled language resources. The risk of spread of disease to the animal population, however, ranges from low to high depending on the pathogen.

Criminal Procedure in Canada, 2nd Edition

Dunk tank A disinfectant-filled vessel located at or on the containment barrier that allows for the safe removal of material and samples from containment zones via surface decontamination achieved through immersion. Security barrier A physical obstruction designed to prevent access to pathogens, infectious material, toxins, or other related assets by unauthorized personnel e.

Security and Defence in the Terrorist Era, Second Edition

Jewellery may also interfere with PPE e. Canadian Security Intelligence Service Part V: Defence Intelligence Chapter 11: Share Part I: General Legal Considerations A.
