Kultura i razum: konvergencija ili divergencija? The development of society is influenced by many factors in their complex, dialectical interaction, including the level of development of the forces of production, of the relations of production, and of the corresponding phenomena of the superstructure the state, law ; the geographic environment; the density and growth of population; the class struggle; and communications among peoples. In Russia this space is not clearly defined.

History

A dramatic description of the coup d'état and a detailed description of the unfortunate fate of the young prince make it possible to interpret the text also outside the historical narrative, making it a fact not only of historical description but also of artistic prose.

The article analyzes the correspondence between prince and princess Menshikov, which had begun four years before their marriage.
