It is assumed a deal containing financial services cannot be negotiated in less than two years. In return, the United States gave trading status to Britain, and acquiesced in British anti-French maritime policies. They were a signal that the end was nigh--and that it was time for one last push to sell the life out of the British currency.

Instead the shipping company uses one of its own as a middleman — but not a decision-maker — to stall for time. The United States now emerged as an important neutral country with a large shipping trade. Both sides have been exploring alternative ways to continue discussions, including if possible the use of video conferences.

Jay Treaty

CS1 maint: uses authors parameter see also. The issue of regulatory alignment is that the EU believes that the UK would need to 'closely shadow' EU regulations on product safety, environmental protection, workers' rights, subsidies, etc.
