## China

It is one of the only urban Wetlands in the country.

## Administrative Map of the People 's Republic of China (1: 35 million) Online Map

Wolong's political system is currently limited to nature preservation. Concentrating upon the neighbouring but contrasting provinces of Sichuan and Guizhou during the decade before the Cultural Revolution, this book examines the interaction between centre and province and, without adopting a 'centralist' or a 'pluralist' viewpoint, argues that a spatial dimension is of necessity part of the Chinese decision-making process.

## Guiyang

Sichuan was subjected to the autonomous control of kings named by the imperial family of Han Dynasty. Prefectural level cities nearly always contain multiple , , and other such sub-divisions.

## Prefecture

It crosses over into areas under the jurisdiction of the neighboring city of. Due to tax incentives and state support, multinational corporations such as , , , , and have opened offices in Guiyang.

## China

For example, writes that he was born in Town of Shawan, within Prefecture of Leshan, and attended primary school in Town of Jiading. During the Chinese 206 BCE—220 CE , to which the Dian was tributary, Guizhou was home to the collection of tribes, which largely governed themselves before the Han consolidated control in the southwest and established the province. Apart from the three elevation zones already mentioned, it is possible—on the basis of geologic structure, climatic conditions, and differences in geomorphologic development—to divide China into three major topographic regions: the eastern, northwestern, and southwestern zones.

Gansu
