On an emergency basis, 4 out of 12 ministers of the Provisional Government who made up the then cabinet i. Mazepa, other diaspora and foreign historians began to be reprinted, dissertations began to be defended their count went to hundreds , numerous books and articles to be published in which the events of 1917—1920 considered from the point of view of the Ukrainian revolution. And the first, undoubtedly, the most difficult historically conditioned and decisive, fateful step was taken in the national revolutionary impulse.

## The Public and Private Lives of Mennonite Kolkhoz Chairmen in the Khortytsia and Molochansk German National Raïony in Ukraine (1928

Budapest: Central European University Press, 2007. By the end of 1917, there were already at least 100 thousand people in their ranks, and during the entire revolutionary era there were 33 parties in the Dnieper region and 9 more in the Western region. As a result of fermentation, vacillation, splits, delimitations, their most active, business-like elements parts emerged from their midst, evolving to communist positions, forming national-communist parties — the Ukrainian Communist Party Borotbists and the Ukrainian Communist Party.

Fresno, CA: Center for Mennonite Brethren Studies, 2011. After Ukraine got its independence the situation in Ukrainian science has changed and there have appeared the works with retrospection of the Donbass social and economic development.

## Ukraine, revolution 1917

Cambridge: Harvard University Press, 1980. The most important task is to comprehend, in all its complexity and multidimensionality, the degree of influence of national liberation tendencies, national-state aspirations, self-determined actions caused by them on the revival of national life in conditions of an incredible aggravation of the class struggle and cardinal socio-economic, political changes, and an increase in the level of public

consciousness.

Moreover, the scale and intensity of revolutionizing social processes in Ukraine often exceeded and sometimes seriously the analogous values in other regions. Having paid a lot of attention to comprehending revolutionary phenomena over many decades of research, the author of this essay has invariably sought to focus on scientific theoretical approaches and criteria.

In 2 volumes, 3 parts. At the same time, it is important to emphasize once again that the consideration of the problem should be carried out not only along the line of the Russian revolution — the Ukrainian revolution this, as can be seen from the above, although important, but still only part of the complex political, social spectrum.
