Because, for sure, there are enough reasons to be out protesting right now. Then, just this Xmas, Lisa bought me a four CD collection of his stuff-- still sounds as fresh and relevant and inspiring and educational to me as it did all those years ago! He joined the , formed by and Eric Winter, which went to a number of in the 1950s. They said, Next time we shoot you.

Leon Rosselson, Where are the barricades?

My response is to hope that people tweet this everywhere possible, to the culprits, the airbrushers and the allies who will witness their responses. From the moment he took office he was undermined and vilified. The ghost of George Brassens -- Jake's hero too -- appears to him in one song to tell him to carry on writing regardless of what everyone thinks.

commonerschoir

And there are choirs springing up all over the place, indulging our rekindled love of a lung-bursting sing-song.

A very modest provocateur

The Song of Martin Fontasch tells the tale of a folksinging Jewish partisan during World War II who manages to convince his German captor to let him write one last song before he is shot. Initially inspired by the industrial folk songs of Pete Seeger and the Weavers, he increasingly veered toward political topics. Why are we still spending billions of pounds on weapons that could destroy the world? It was a stinging yet hilarious attack, which could just as easily be applied to New Labour some years later.

'A Zionist without qualification'

That 1958 march marked Britain's first postwar expression of mass protest, triggering a major national Easter event over the next few years. In the event, nothing happened.

In praise of Leon Rosselson

We have shown our ability to be bringers of pain, suffering and death. He has been banned by the BBC, outraged Christians and even attempted a deliberate contempt of court in song - but there is a strong chance you may not have heard of him. He shows with pity and irony how their lives are an offence under the IHRA definition of antisemitism and how describing them only compounds their offence.

Media, Politics and Culture

In a funny way considering what an unassuming performer he is the evening is carried by the force of his personality. Hence the desire to draw an equals sign between the Palestinians and the Nazis whereas the correct designation is that of Leon Rosselson, between Zionism and the Nazis.
