Basic Pharmacology of Ergot Alkaloids

Hydergine enhances memory in mice. Due to its dopamine enhancement bromocriptine has even been cited as an aphrodisiac, although little effort has been made to study and confirm this action. The clustering of ergot alkaloid biosynthetic genes, and differences among those clusters in fungi that produce different groups of ergot alkaloids, have been helpful in identifying candidate genes for early, shared steps versus later, lineage-specific steps.

Pharmacology of nootropics and metabolically active compounds in relation to their use in dementia

Background: Uncertainty exists regarding the correlation between unruptured cerebral aneurysms and their role in headache etiology.

Don't Ergo the Ergots (or don't overlook the benefits of the

Ergotamine can cause birth defects.

Ergotamine Uses, Side Effects & Warnings

Either too much or too little can upset the balance and generate the production of free radicals, which in turn can lead to aging.

Dihydroergocristine and memory alterations of aged male rats

Deficits in cholinergic enzyme activities in septo-temporal regions of the senescent rat hippocampus, and in the forebrain of aged mice: effect of chronic Hydergine treatment. Ergotamine can cause rare but serious side effects on the heart, including heart attack or stroke.

Headache, cerebral aneurysms, and the use of triptans and ergot derivatives

Uterine smooth muscle— The stimulant action of ergotalkaloids on the uterus, as on vascular smooth muscle, appears to combine α agonist, serotonin agonist, and other effects.

Neurochemistry of the Aging Brain and Senile Dementia

A significant correlation was found between prolactin changes at 12 weeks and several categories of behavior measured by the Sandoz Clinical Assessment Geriatric Scale SCAG. On brain protection of co-dergocrine mesylate Hydergine against hypoxic hypoxidosis of different severity: double-blind placebo-controlled quantitative EEG and psychometric studies. Chronic administration of dihydroergotoxine, at the two doses of 2.
