Police officers place themselves in the line of fire. The words of Jung himself and those who shared his work and private life are shared verbatim, connected by Claire Dunne's lively and accessible commentary and by an evocative array of illustrations including photographs of Jung, his associates, and the environments in which he lived and worked, as well as art images both ancient and contemporary that reflect Jung's teachings. Jung was a protégé of Sigmund Freud, with whom he later fell out. Jason Mallia experienced trauma and upheaval.
