The CB is the place where the hull teeter-totters when it bobs up and down.

Buehler's backyard boatbuilding : Buehler, George, 1948

It doesn't matter that your boat is as tough as nails - things like steel and concrete ballast and iron fastenings in the hull just terrify people not without some reason, let's be honest and will dampen the market. Cruisin' on Land George Buehler Publications, 2009 I admit it; Gail and I are RVers, and have been for some years now. Believe it or not, the hardest part is just to stop talking and actually start.
