The Interview : From Formal to Postmodern by Andrea Fontana, H. Prokos Anastasia and Anastasia H. Prokos (2007, Trade Paperback) for sale online

Focus groups are a type of group interview in which respondents are asked to discuss certain topics. This book makes a valuable contribution to qualitative classes that attempt to introduce students to the full range of research possibilities. Going from Unstructured to Structured Questions Unstructured Questions allow the interviewee to guide the conversation, letting them focus on what they think is most important.

Sending an Email to Confirm an Interview

Feelings Tell me about the feelings you experience when you perform.

Unstructured Interviews

They outline the range of ways in which interviews are conducted, both structured and unstructured, then provide instruction on conducting and interpreting interviews, and address ethical considerations in eliciting information from people.

Unstructured Interviews

These recordings are later transcribed to serve as solid data for further investigations and aid research findings. This should allow respondents to express themselves and explain their views more fully than with structured interviews.

The Interview From Formal To Postmodern PDF Book

In the beginning of the semester, I tried connecting with the group so I could go through the training process and hopefully accompany them on some of their cases. Unlike structured interviews, yet similar to natural conversations, researchers ask questions that are largely unscripted. This should also relate to the research questions, which I have not discussed here.

Structured Interviews

Spradley 1979 suggests a formal sequence for doing this kind of work through asking descriptive questions, and then later structural and contrast questions, although actual fieldwork is likely to take a much messier form than suggested by his linear 12-step developmental sequence.
