Telling the difference between grief and depression

Physicians can help patients who are grieving by encouraging them to use external sources of support, including family, friends, and faith communities. Psychological issues in end-of-life care.

The Difference Between Sadness, Grief And Depression

Caution is warranted in generalizing these data, because none of these trials focused solely on persons with clinically diagnosed depression.

How I Recovered From Depression and Anhedonia

Why Drinking Might Not Be for You For some, an occasional drink is harmless.

5 Types Of Melancholy

Should that include more , less drinking, or quitting altogether? And you can get the same anti-inflammatory benefits found in red wine from eating some delicious grapes, which also provide dietary fiber and immunity-boosting vitamins A and C.

Grief, Sadness, and Your Mental Health

In major depression, feelings of worthlessness and self-loathing are common.
