Conservation

The time came when, at a critical moment, the managers saw that they had not reckoned without their host in choosing this barber of the black district as the leader of his people. Through characters ranging from schemers to preachers, Paul Laurence Dunbar crafted a rare snapshot of long-lost communities and their poignant sensibilities. He was admitted to the bar soon after, whether by merit or by connivance is not to be told.

Asbury came to be known as a clever fellow, and his business grew. The crowd hastened to array itself on the growing side.

All the next day and night he was busy among his allies. It had been very quietly done and quickly.

Chapter 12: The Lynching of Jube Benson

It was a close election and many things had had to be done, but there were men there ready and waiting to do them. The next thing he knew was that plans were on foot for a rival demonstration. The plot was deep and embraced the formation of an opposing faction made up of the best Negroes of the town.

The Heart Of Happy Hollow/The Wisdom of Silence

Much of his work is written in the Negro dialect associated with antebellum plantation life, and however historically correct that may be I found it tedious to read and it detracted from my enjoyment of the stories. Asbury had started life as a bootblack in the growing town of Cadgers. His allies left him one by one for the other hall, and he rode home in a humiliation deeper than he had ever known before.
