MnB B1G Preview: Talking defense, recruiting, and the future with Luke and Ramzy (Part Two)

There are two minefield record forms: Minefield Record. Anti-personnel mines are most difficult to find, due to their small size and the fact that many are made almost entirely of specifically to escape detection. Commanders normally use the fix effect inside the EA.

Is a Lousy

A joint team of researchers at the University of New South Wales and Ohio State University is working to develop a system based on multi-sensor integration. All mines are picked up by the emplacing unit upon leaving the area, unless enemy pressure prevents mine retrieval or the minefield is being transferred to a relieving commander. Delivery systems available should be prioritized in allocation similar to other critical resources.

Still, a lot of people have lost a lot of money over the years shorting Microsoft. I sure hope that doesn't happen, but it's not exactly hard to imagine someone doing it.

Land mine

South Africa is widely credited with inventing the , a vee-shaped hull for armoured vehicles which deflects mine blasts away from the passenger compartment.
