Herodotus

How could you not want to read Herodotus, the author of unforgettable aphorisms and cracking stories? For me, it was the bits about the Great Pyramids that stood out most in this section. By the twentieth century, Herodotus had gained a healthy respect as a reporter, and as more and more of his accounts were backed up with archaeological evidence he grew in reputation as a researcher. The book also contains some beautiful illustrations! It should be noted, however, that some scholars feel that it was Herodotus' unpopularity due to his Athenian ties, and not his restlessness that caused him to leave.

request, down into a pit, and the Spartans had thrown theirs into a well; and the heralds were told to take their earth and water to the King from there! It was not a chronicle, nor was it a local history. While we can show that Herodotus had a familiarity with Hecataeus, there are several other sources which Herodotus was probably familiar with but which we cannot identify. By estimating the number of years between generations, however, it is possible to count backwards and estimate approximately how long ago an event occurred.

Read The Histories Online by Herodotus

Pienso en reyes cuyos palabras eran la ley en tierras distintas, en oro y gloria, y además en una confusión de idiomas igual que la de Babel. He traveled extensively during his lifetime and wrote down historical events as best he could.

Herodotus dismisses many of the ancient theories on the origins of the Nile, and while he is correct in the refutation of these theories, the solutions he presents for the behavior of the Nile are equally false.

Herodotus

The people of Neuri, he was told, became wolves once a year. This book contains so many fascinating anecdotes; it's educational as well as enjoyable. I received a free copy of this book via Audiobook Boom! From there, Herodotus journeyed on to Busiris, where he observed and recorded some of the practices of the cults of Osiris and Isis.

Stories from Herodotus

Some city states were cowed into complying while others refused; but the demand went down particularly badly in Athens and in Sparta: ...the Athenians cast these heralds, when they made their
