Secrets in the Attic (Full Circle, #1) by Paulette Packard Johnson

I don't know why I keep reading V. I found Karen at first to be an intriguing character, admittedly she was showing odd behaviour but I feel as though she turned crazy out of nowhere with no build up to it at all. Focusing on female protagonists, she would organize her work into a set of five books as they spanned out over a series.

When I read this book it brought back memories of young friendship that felt as though they would last forever.

Escape room in the Attic by Beat the Lock in San Jose

Also i got the impression that her relations with Jesse were only written in there so that there could be a sequel. I wondered why zipporah was such an outcast that she could be so easily manipulated, seems like she had a good home, wasn't too ugly, too smart, or too dumb, i just didn't believe the new girl with the weird name would be so invisible. Hopefully the conclusion will be good.
