A month in a horse's life: healing process of a fractured third metatarsal bone from medieval Viljandi, Estonia

Beyond bone commons: Recent developments in zooarchaeological data sharing. Bones from Anglo-Scandinavian Levels at 16-22 Coppergate. That may be true but in presenting it as a template for urban zooarchaeology the author and series editors misses a point which renders the entire volume overly optimistic in nature: rarely are zooarchaeologists engaged in project design.

From intra

Optimising information from studies of faunal remains. Bartosiewicz L and Gál E 2013, Shuffling Nags, Lame Ducks: The Archaeology of Animal Disease. Practical and analytical procedures are set out in detail, with discussion of the strengths and weaknesses of different methods of data analysis and presentation.

Bibliography for AR3017/AR7317 Archaeozoology

The lab is located in Room 102 on the first floor of.

The analysis of urban animal bone assemblages

Oh, that I had had such a tool as I began my career! Assessing the future landscape of scholarly communication: An exploration of faculty values and needs in seven disciplines.

Other People's Data: A Demonstration of the Imperative of Publishing Primary Data

The study of animal bones from archaeological sites. The SAA Archaeological Record, 10, 12—16. Students will receive instruction in comparative skeletal anatomy and will gain practical experience identifying and analysing vertebrate remains.
