Soundbeam

It is also fun and a pleasure for the participant which is a crucial factor during the sessions as this key factor may define whether or not the therapeutic session would be successful. SOUND Canvas and Yanni Set up Connect SOUND Canvas to the piano Activity Choose a sound which will provide a state of relaxation and quiet environment - Experiment with the different sounds as there are several from which you can choose You may want to have the clients sit in a semi-circle in front of the keyboard so they are focused on the music and not anything else in the room. Setting for range dial will vary depending on where you will be pushing the clients.

1998 Conference Proceedings

Repeat until everyone has a turn. Choose one client to go first. Whilst progression and development remain a key focus, the essence lies in the internal motivation of the child, in working from the inside - out.

Soundbeam

One client comes up to the Soundbeam sensor. In addition the technology also provides physical access for the disabled. Movements within the beam generate data interpreted by any MIDI instrument.

Soundbeam 6 — Soundbeam

Even where a music therapist may claim to be responding to a patients music, this is a personal response on the part of the therapist.

[PDF] Vibroacoustic sound therapy: case studies with children with profound and multiple learning difficulties and the elderly in long

The multisensory environment meets their needs and makes them to feel comfortable and secure.
