Case studies in pathology from the National Museum of Health and Medicine, Armed Forces Institute of Pathology

The prints were superimposed upon one another, checked for accurate registration, and true color values, corrected by differential printing of the three images, and then mounted — yellow image first, red second, and blue third, to complete the picture.

Case studies in pathology from the National Museum of Health and Medicine, Armed Forces Institute of Pathology

While the dental and oral section of the American Registry was over- coming the degree of indifference which it met at the outset, two other registries were being successfully launched.

The Armed Forces Institute of Pathology. Its First Century: 1862

As the wartime hospitals were inactivated, and their laboratory material was forwarded to the Institute for screening and review, there was a spurt in cases handled. Designed to accommodate 50 patients, the new hospital had good ventilation and running water supplied by the city, and was furnished with gas for lighting.
