Dairy Plants USA

Following the cancellation of a previous producer-handler designation, a person seeking to have their producer-handler designation reinstated must demonstrate that these conditions have been met for the preceding month: 1 The care and management of the dairy animals and the other resources and facilities designated in paragraph b 1 of this section necessary to produce all Class I milk handled excluding receipts from handlers fully regulated under any Federal order are under the complete and exclusive control, ownership, and management of the producer-handler and are operated as the producer-handler's own enterprise and at its sole risk. This market study covers the global and regional market with an in-depth analysis of the overall growth prospects in the market. We make no warranties or guarantees about the accuracy, completeness, or adequacy of the information contained on this site or the information linked to on the state site.

Federal Milk Marketing Orders

In conjunction with the publication of the final decision, AMS released a Regulatory Economic Impact Analysis REIA to study the possible impacts of the California FMMO. The hearing was held to receive evidence on four proposals submitted by dairy farmers, handlers, and other interested parties. The Agricultural Marketing Agreement Act authorizes FMMOs and USDA amends and establishes them through a hearing process overseen by the Secretary of Agriculture.

Oregon Statutes 621.018
