## TheoryReader

Emphasizing the unity between the logical and the historical, the distinction between intellectual verständlich and rational vernünftig explanation, and the cognitive importance of contradiction, the author argues for the prospect of an evolving totality of reflective reason.

## Das Denken der Freiheit

Leadership decisions enabled, and then attempted to deflect attention from, the crises. Their journeys are accompanied by two motives which characterize the writing of Andrey Platonov: optimism and faith in the goodness of humanity, and abject despair at the cruelty, randomness, and apparent senselessness of our existence.

## TheoryReader

Expanding on philosophical conceptions of love, nature, and mind, Lear shows that love can cure because it is the force that makes us human. As per other volumes in the series, this book is divided into three parts.

## Hegel Varia

The return of the dead is sign of a disturbance in the symbolic rite, in the process of symbolization; the dead return as collectors of some unpaid symbolic debt. In a departure from conventional glossaries, however, the entries are mini-essays in themselves, allowing a real engagement with the many, sometimes contradictory, ways the figure has applied the terms. This fresh and timely story brings you on the trail, into the private rooms and along to eavesdrop on critical conversations.

## **Das Denken der Freiheit**

Combining a realism inspired by his work as an engineer with poetic vision and the deceptively simple language of folk tales, Platonov sets his stories alight by using language in a way that renders it unfamiliar, makes the ordinary seem unusual and the extraordinary logical. With its strong connection between philosophy and literary modernism, this highly original volume advances modernist literary study and the relationship of literature and philosophy. A brilliantly evocative writer and conceptual creator, his influence is clearly discernible today across nearly every discipline-philosophy and history, certainly, as well as literary and critical theory, religious and social studies, and the arts.
