Writing About Nature: A Creative Guide book by John A. Murray

The August RC Book Club discussions will begin with explorations of what gives power to her writing. Nature provides philosophical foundations for the American valuation of nature, whereas Walden takes that philosophy into the field, showing how the intellectual and spiritual values of nature may be gleaned from minute observation made in direct contact with the land.

Travel writing, science writing, and mountaineering literature converge in King's Mountaineering in the Sierra Nevada 1872 , a classic example of the science based heroic western exploration narrative. Among those who wrote about their western adventures were a new breed of scientist-adventurers exemplified by the geologist-explorers 1842—1901 and Powell 1834—1902.

The Sierra Club nature writing handbook : a creative guide : Murray, John A., 1954

Although King reported his experiences as a geologist participating in government-sponsored scientific surveys, the thematic essence of his essays is the triumph of a courageous wilderness hero over the romantic but threatening landscapes of the West. It will refresh and energize your body and mind That we are drawn to and can be inspired by the natural world should come as no surprise.
