By studying the production of school statistics in Benin, Sarah Fichtner shows that the framework relative to the Education for All target, centered on keywords such as education partnership, voluntary work and effectiveness, implies a change of educational policy, in particular concerning the headcount and repetition rate in schools. Depuis son retour à un gouvernement civil en 1999, le pays a fait de lourds investissements dans ce domaine.

PAS

Each research group brought together the relevant scientific institutions for the sector approximately 12 for each sector and was supervised by a monitoring committee comprising policy-makers, local authorities, civil society and the private sector.
