Wiley Finance: Security Analysis and Business Valuation on Wall Street, + Companion Web Site : A Comprehensive Guide to Today's Valuation Methods (Series #458) (Edition 2) (Hardcover)

The validity of each methodology -- be it guideline companies or discounted cash flow, to give two examples -- has to be cross checked against its counterparts now more than ever, or the appraiser can get false readings. I am now more confident that I can communicate with users of statements and have a mutual understanding. Completely updated to reflect the latest methodologies, this reliable resource represents the most comprehensive book written by someone who has actually worked as an investment banker, private equity executive, and international institutional investor.
