Operation to protect Dorset's precious heathland

It can have up to three broods from April to July. The fire has caused damage to around 150 hectares of forest and heathland and Read more, below.

Dorset heathland home to thousands of wild animals destroyed in fire

This is a live blog. Sugar Hill and Bere Road have been closed as the smoke has made them impassable, and the A35 between Bere Regis and Morden Park Corner is also closed at this time.

Help Dorset Recover

Once it was seen as sinister — you may remember the Blasted Heath where Macbeth meets the three witches, or Thomas Hardy's Egdon Heath, the dark wilderness at the heart of his Wessex. The first survey results were collated by Natural England and Footprint Ecology.

Help Dorset Recover

This is achieved with a combination of, an inclusive , access management and fire risk assessment and heath management. The planning authority must ascertain that the plan or project will not have an adverse effect on the integrity of the site, alone or in combination with other plans or projects, either directly or indirectly, taking account of any conditions or restrictions that would help ensure no adverse effect, before granting permission or adopting a plan or policy.

Dorset heathland home to thousands of wild animals destroyed in fire

To provide certainty to those making applications for residential development and to ensure transparency and accountability, a mechanism for the calculation of the planning obligation has been adopted, based on the forecast 2-year average population increase by type of dwelling in 2012-2026.

Update regarding heath fires in Poole

The international nature conservation designations cover 96% of the Dorset heathland, and 97% is covered by the Sites of Special Scientific Interest SSSIs UK designation. This is due to the proximity of existing infrastructure to these zones, and the potentially very costly and extensive demolition and relocation programmes that would need to take place.
