I've ignored the fact that nearly every single female character spends half their time acting like an idiot and the rest screeching like a fishwife; I've put to one side the fact that Robert Jordan is pretty hopeless at creating believable romantic relationships seriously do any of the couples actually speak to each other or do they all just stare longingly across the distance before suddenly declaring themselves head over heels in love? No, but things do slow down somewhat. Making Alviarin wait was bitter, because it was petty, and petty ways were all she had to strike at one who should have been her servant. Book and dust jacket are in Very Good condition.

I was disgusted with the behavior of Tylin and the enthusiastic support she received from palace hands and other Ebou Dari women, but even that I was able to understand as an in-world problem rather than a problem with how the author was presenting the story. He dealt well with a few political adversaries and got to battle a few of his main enemies. No sister would disobey an Amyrlin, not directly at least, yet many decrees required a hundred other things ordered to implement them.
