## Australian Birdlife Magazine

Finches have a bouncing flight, alternating bouts of flapping with gliding on closed wings, and most sing well.

## Find a Bird

Three species are found in Australia. Even for terrestrial birds much work is still being conducted describing Australian bird subspecies. Many of us are probably unaware of the diversity of bird subspecies that exist in Australia.

## Working List of Australian Birds

Endemic breeding only : Taxa that only breed in Australia, but which have non-breeding distributions elsewhere. However, some fledglings would die within the few first months from birth because of lack of food, unfavorable weather conditions, natural predators, road traffic hazards, etc. They are not related to the New World orioles.
