Delta Plan Amendments

Delta Plan Amendments Adopted by Delta Stewardship Council Council in May 2013, the Delta Plan anticipated the need for periodic reviews and updates in response to changing circumstances and conditions in the Sacramento-San Joaquin Delta Delta.

Delta Conservation Framework

Past Amendments Performance Measures: When first adopted, the Delta Plan contained preliminary performance measures developed to monitor implementation of its policies and recommendations.

State Water Resources Control Board

In May 2015, state and federal agencies shifted their approach from the BDCP to a more focused set of mitigation projects. This amendment was adopted in April 2018. The May 2020 Draft incorporates extensive feedback from the Council, Delta stakeholders, the Delta Independent Science Board, independent scientific peer reviewers, and the public.

Delta Plan Amendments

The current Delta Plan performance measures are in Appendix E of the Delta Plan.
