Building a Fence Gate : 6 Steps (with Pictures)

Use the spacer block at the top, middle, and bottom of each picket. Of you opt not to use concrete make sure you really compact the dirt around the posts well or the posts will work the hole and become loose. You'll definitely want whatever you choose for posts to be fixed into concrete.

Building a Fence Gate : 6 Steps (with Pictures)

I am ok re building the actual gates which will be 5 feet high by whatever width I can manage. Diagonal cross-braces like this should always angle downward to the lower hinge. Out here in western Washington, we have a place at the beach, where I'm about to cut into the screening around a raised a porch and make a gate.

How to Build a Fence

When it comes to the order in which you build, start with the fence first. Due to the natural movement of wood and to help the gate always close all the way without binding, it's good to leave a little gap on the hinge side rather than install the hinges with the gate and post mashed up against each other.

Build a Wooden Fence and Gate : 13 Steps (with Pictures)

. This might be a little tricky if you do this alone like I did. Once I did this, the dreadful gate sagged no more, and doesn't even look all that ugly from the inside.
