### Dark Side Competition: Apple and the Human Costs of Production

Since 2000, 47% of deforestation has been for the purpose of growing oil palm plantations, with around 877,000 acres being affected per year. By 2050 the human population will top 9 billion, and world meat consumption will likely double. This cannot always be achieved but, by and large, much can be done.

### The Human Side Of Management

This will create frustration and sense of insecurity among the workers.

### Human impact on the environment

Her argument was that individual behavior is affected by and affects others in the group. Both upward and downward communications between the management and the workers flow through them. In , there is believed to be a 70 percent loss.
